## WANT A COMPACT UTV FOR CAMPING, HUNTING OR CRUISING YOUR LAND OR THE BEACH?

**DRIVE THE XRT850.** The XRT850 has more ground clearance and larger tires than the XRT800, so it performs well on a bit rougher terrain and on the beach. Yet this compact two-wheel drive vehicle fits in the back of a standard pick-up truck or crowded garage.

Available in gas or electric, the XRT850 offers endless possibilities, making it a favorite among men and women. You can cruise the neighborhood in the morning, skim the beach in the afternoon... take it hunting one day, camping the next, to the race track on the weekend. And it makes doing chores around your property a breeze, so you can knock out your honey-do list in no time.

This versatile vehicle won't bust your budget, and it's covered by a two-year consumer warranty, the longest in the industry. With an XRT850, you can:

- **Select an 10.4 hp (7.8 kW) Kawasaki gas engine or a 48-volt electric, peak 13 hp (9.7 kW) drive system.** Both are equipped with 22 in (559 mm) off-road tires and front and rear leaf spring suspension with dual hydraulic shocks for a smooth, comfortable ride.
- **Carry lots of cargo.** Choose from a fold-down, rear-facing two-passenger seat that converts into a small flat bed or a powder-coated aluminum cargo box with 150 lb (68 kg) capacity.
- **Enjoy years of usage and a high resale value.** The XRT850 is built on a rustproof, non-corrosive aircraft quality aluminum frame. It's equipped with a deluxe brush guard as well as a standard rear differential guard. And the front and rear bodies are made of durable, impact-resistant material.
- **Stay safe and comfortable.** The XRT850 features creature comforts such as a roomy bench seat, a comfort grip steering wheel and cup holders. Its halogen headlights, self-adjusting rear drum brakes and reverse warning indicator help keep you and your family safe and secure.
